

2025 Ministry in Review

Equipping Leaders to take the Gospel to the World

A Year of Multiplication and Transformation

As we look back on 2025, we marvel at how God has opened doors and deepened partnerships for the sake of His Kingdom. Leadership Revolution exists with a unique focus: we partner with key ministries in strategic global areas to train and multiply leaders—pastors, business leaders, evangelists, and disciple-makers—so that the gospel can advance into critical areas of need and opportunity.

Each partnership represents lives changed, leaders raised, and churches planted. Here are some highlights of what God has done this year.

Harvesters Ministries: A Strategic Reset for Global Impact

In September 2025, just outside Johannesburg, South Africa, we joined the Harvesters global leadership team for a crucial strategic planning and ministry reset. Harvesters has already planted more than **150,000 churches worldwide**—a stunning testimony to God’s faithfulness. But their bold vision reaches further: **to plant one million churches and see 10**

million people come to Christ.

This reset marked a shift from simply training leaders at every level to **deep spiritual leadership development**. Leadership Revolution contributed biblical frameworks and training tools to strengthen leaders across every tier.

For His Glory Ministries: Multiplying Leaders and Disciples

For His Glory Ministries (FHG) has a breathtaking vision: to see disciple-making movements (DMMs) launched across Africa. In 2025, their work reached **millions with the gospel through festivals** and launched **hundreds of thousands of new discipleship groups**. Their target is bold: disciple-making movements in **22 cities across 8 nations by year's end**.

Behind the statistics are leaders carrying the weight of multiplication. This is where Leadership Revolution serves. We have focused on **senior T4T trainers**, equipping them with biblical leadership, mentoring support, and resilience training.

Cross Ministries – Guntur, India: Planting Churches in Unreached Areas

In India, Cross Ministries continues to bring the gospel into tribal and unreached districts. Their passion is to plant churches where none exist. In 2025, through our **One Leader Training**, we partnered with them to train over **2,000 pastors across more than 20 cities**.

This training emphasizes spiritual depth, multiplication, and contextual disciple-making. Leaders are being raised up to pioneer churches in remote villages, gather new believers into community, and mentor future pastors. By combining Cross Ministries' local passion with our leadership frameworks, the result is sustainable, Spirit-formed church planting.

Calson Nyathi & Southern Africa: Multiplying Leaders

In 2025, Leadership Revolution has been blessed to partner with **Calson Nyathi**, a dynamic leader serving across Southern Africa. Calson is a **Chief Master Trainer** of the *One Leader* leadership development process, equipping pastors and business leaders to multiply their influence for Christ. This year, he has led **15–20 trainings across six nations**—including Zimbabwe, Botswana, Malawi, Zambia, Mozambique, and beyond.

Under his leadership, a network of **8–10 trainers** is now actively multiplying the work, providing ongoing training for pastors,

church planters, and businesspeople throughout the region. The results have been remarkable: stronger leaders, healthier churches, and families transformed by Spirit-filled leadership.

The ripple effect of these trainings is reaching not only congregations but entire communities, building a foundation for long-term multiplication and Kingdom impact. Leadership Revolution is honored to serve alongside Calson as he equips a new generation of leaders for Southern Africa

Our Father's Home Ministries – Building Leaders for the Unreached

Founded in 2010 by Gandham Buli Veerraju, Our Father's Home Ministries (OFHM) carries a vision to unify believers and bring Christ to unreached villages in India. **This year, Leadership Revolution partnered with OFHM to provide monthly training for about 150 pastors.**

These pastors, serving in rural and often difficult contexts, are being strengthened in leadership, discipleship, and evangelism. Many of them are reaching out to unreached people groups, planting churches, and discipling believers in environments where the gospel has not yet taken root. And by God's grace, we're getting results.

In 2026, we're committed to equipping grassroots pastors for long-term multiplication.

Iron Forums – Atlanta, Georgia: Cultivating Kingdom Influence in the Marketplace

Not all leadership development happens in rural villages. In Atlanta, Leadership Revolution has partnered with Iron Forums to invest in Christian business owners and executives. This year, we facilitated two peer groups of about **12 leaders each**—men and women who collectively influence hundreds, even thousands, through their businesses, communities, and families.

Iron Forums provides a Christ-centered environment of accountability and growth with the help of Leadership Revolution's curriculum. The fruit is clear: stronger leaders, healthier businesses, and greater gospel influence in Atlanta's marketplace.

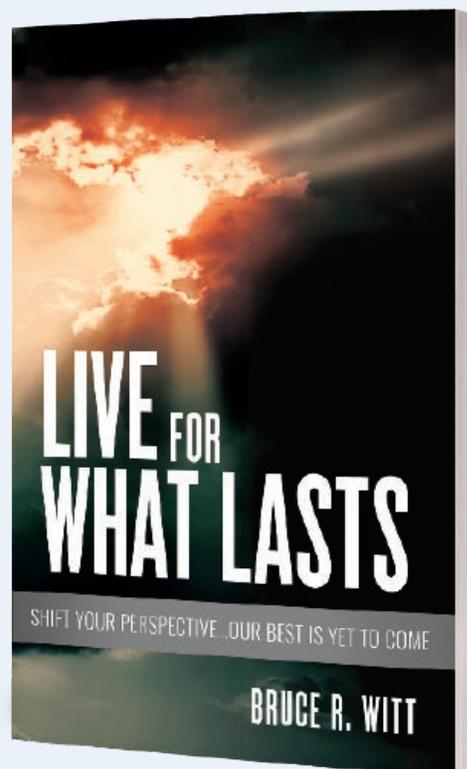

New Leadership Resource

We live in a world obsessed with the temporary—chasing achievements, accumulating possessions, and curating moments that vanish as quickly as they come. But deep down, we all sense it: not everything we pour our lives into will live on. The question that changes everything is this: What truly lasts forever?

The Bible answers with clarity and hope. This new book, *Live for What Lasts*, is designed to help you make a difference by focusing on those things that are eternal.
