LEADERSHIP REVOLUTION
ESTABLISHING CHRIST AS THE LEADER

2026 Ministry in Review

"And do not be called leaders; for One is your Leader, that is, Christ." — Matthew 23:10 (NASB)

We exist for one purpose: to put Christ back in the leader's seat, in every nation He sends us to. This year, that conviction became a movement measured in millions. **Here's the big idea**.

Leadership Revolution does not train leaders. **We train trainers of leaders—and then we get out of the way**. Every pastor Calson Nyathi equips in Zimbabwe, every conference James Bandela leads in Andhra Pradesh, and every field team Harvesters Ministries sends into a new nation carries the same DNA: **Christ as the One Leader, multiplying through a leader fully surrendered to Him**. That is why a $225,000 annual ministry budget can stand behind a movement now touching millions. **We are not funding programs. We are funding multiplication**.

Our Focus is to Train Indigenous Leaders in the Country

In 2026, Leadership Revolution trained 8,000 leaders directly and through our key partnerships—5,000 pastors and ministry leaders in Africa and India, and another 3,000 trained directly through our global partners. But the number that matters most is what happens after we leave the room.

Please enjoy and celebrate the following stories with us.

Helping Develop Fruitful Leaders –

Pastor Dube's Story

WATCH THESE STORIES ONLINE AT LeadershipRevolution.us

Pastor Dube attended a three-day One Leader Training led by our trainer, Pastor Calson Nyathi with over 150 other leaders. This is what he shared –

"Greetings from Zimbabwe! I am Pastor Dube representing Back to Christ Evangelistic Ministries. Our team recently attended a transformative three-day seminar at the One Leader conference, and I can genuinely say it stands out as the finest leadership training we have ever received.

"For a long time, our church was unknowingly making critical mistakes that stifled our spiritual growth and effectiveness. However, this incredible program completely grounded us. Through the inspiring and foundational teachings of our facilitators, Pastor Nyathi and Pastor Sibanda, our entire approach has been rectified. We were reminded that true Christian leadership is never about seeking to be served, but rather about rolling up our sleeves to serve others just as Jesus Christ did.

"This conference has been a powerful eye-opener for our community here in Zimbabwe. We now possess the tools, clarity, and renewal required to lead properly, and our congregation is deeply excited for what lies ahead."

Hope Restored in the Savara Community –

Pastor Bandela's Story

Native Indian missionary James Bhaskar Bandela learned through One Leader Training that true leadership isn't about relying on his own strength or wisdom. Instead, leadership begins with following Christ first and allowing Him to lead through him. This is what he shared –

"Life in the remote hills of the Eastern Ghats—spanning Srikakulam, Vizianagaram, Parvathipuram Manyam, Rayagada, and Gajapati—was once filled with deep fear and overwhelming hardship. When Pastor Isaac began serving our Savara tribal communities in 2009, we endured extreme poverty, dangerous mountain paths, and terrifying conflicts between armed groups and security forces, alongside daily threats from wild animals. ***We lacked basic opportunities, proper clothing, and true safety****.*

continued

"Yet, by the grace of God and through Pastor Isaac's devoted ministry, our region has experienced a miraculous transformation. Peace has finally returned to our hills. ***Today, the heavy burdens of the past have lifted, and our daily lives look entirely different****.*

"Most importantly, children who once had no options can now walk three kilometers through the mountains to attend school every single day. They are growing up with proper education, warm clothing, and a radiant hope for a wonderful future that deeply uplifts and transforms our entire community for generations to come."

From Idol Worship to Servant Leadership –

Pastor Saloman's Story

I have known and worked with Dr. Gandham Buli Veerraju (Saloman) for four years where we have conducted monthly leadership training for pastors in Eastern India in the Andhra Pradesh area. The Lord is using Saloman in a significant way. This is what he shared –

"I was born into a Hindu family deeply rooted in idol worship. My father fiercely opposed Christianity until a miraculous healing changed everything, and he dedicated me to God's service. ***Beginning full-time ministry in 2005, the Lord called me to reach unreached tribal villages in Andhra Pradesh, training local pastors who cannot afford Bible college****.*

"Through our monthly discipleship and leadership programs, we have joyfully planted 165 churches in four years, with new missionaries joining every single month.

"Along this incredible journey, God has radically transformed my understanding of leadership. Previously, we mistakenly thought the pastor was simply the boss of the church. ***Now, through powerful biblical teachings, God has opened our eyes to realize we are merely servants and vessels****. The church belongs entirely to the Lord, and true leadership means serving as Christ, who works in and through us to reach others. This profound shift has deeply strengthened our ministry and blessed our community immensely."*

2027: What We're Building Toward

Together, we can continue to equip leaders, expand the gospel, and transform nations. Here are the strategic plans that we have this year to be a part of God's overall plan –

1. **Three international training trips with Harvesters Ministries** — South Africa, India, and the Philippines—completing and distributing *The Leadership Exchange*, Servant Leadership, and Teambuilding materials.
2. **Deeper investment in For His Glory**, traveling alongside Rob Welch and Mark Levesque to equip the leaders sustaining their T4T movement.
3. **'The Leadership Exchange' in print** — our newest training book, printed and in the hands of national leaders.
4. **New discipleship materials** developed with four U.S. ministries.
5. **Entrepreneurship training expanded** in Africa and India through the *Leadership X-Factor* and *SERVE.*
6. **Online training grows** with the addition of content from the book *Live for What Lasts*, reaching leaders no trip can.

Not all leadership development happens in rural villages. In Atlanta, Leadership Revolution has partnered with Iron Forums to invest in Christian business owners and executives. This year, we facilitated two peer groups of about **12 leaders each**—men and women who collectively influence hundreds, even thousands, through their businesses, communities, and families.
Iron Forums provides a Christ-centered environment of accountability and growth with the help of Leadership Revolution's curriculum. The fruit is clear: stronger leaders, healthier businesses, and greater gospel influence in Atlanta's marketplace.

The Investment

Our 2027 budget goal is $225,000, and this is a small number set against what it produces: leaders who plant churches that plant churches, in nations we may never visit ourselves. Every trainer we send is the reason thousands of national leaders never need to leave home, or pay a Western salary, to be equipped.

In 2026, 8,000 leaders were trained. In 2027, a movement across 10 nations is asking us to help it grow.

By God's grace, we are over 75% funded to reach this goal! Closing this year's $50,000 gap keeps this model funded for another year of multiplication.

Will You Join Us?

Please consider a tax-deductible gift to Leadership Revolution by December 31 as part of your year-end giving plans, and thank you for your support!
